

In the Claims:

- 1.(original) A packaged detergent composition comprising a container that at least partly disintegrates in an aqueous environment, the detergent composition comprising at least one liquid and at least one solid substantially insoluble in the liquid characterized in that the at least one solid has a density lower than the density of the liquid.
- 2.(original) A packaged detergent composition according to claim 1, wherein the at least one solid has a size sufficient to be retained by a 2.5 mm mesh.
- 3.(presently amended) A packaged detergent composition according to claim 1 ~~claims 1 or 2~~, wherein the at least one liquid has a dispersion/dissolution time as measured by the dispersion/dissolution time test of more than 30 s.
- 4.(presently amended) A packaged detergent composition according to claim 1 ~~any claim from 1 to 3~~, wherein the at least one liquid has a viscosity of at least 100 mPa·s.
- 5.(presently amended) A packaged detergent composition according to claim 1 ~~any one of the preceding claims~~, wherein the container is a sachet.
- 6.(presently amended) A packaged detergent composition according to claim 1 ~~any one of the preceding claims~~, wherein the material of the container is essentially water-soluble.
- 7.(original) A packaged detergent composition according to claim 5, wherein the water-soluble material comprises polyvinyl alcohol.
- 8.(presently amended) Use of the packaged detergent composition according to claim 1 ~~any one of claims 1 to 6~~ in an automatic dishwashing machine.

- 9.(presently amended)      Use of the packaged detergent composition according to claim 1 ~~of any one of claims 1 to 6~~ in a laundry washing machine.
- 10.(new)      A packaged detergent composition according to claim 2 wherein the at least one liquid has a dispersion/dissolution time as measured by the dispersion/dissolution time test of more than 30 s.
- 11.(new)      A packaged detergent composition according to claim 10 wherein the at least one liquid has a viscosity of at least 100 mPa·s.
- 12.(new)      A packaged detergent composition according claim 10 wherein the container is a sachet.
- 13.(new)      A packaged detergent composition according to claim 10 wherein the material of the container is essentially water-soluble.
- 14.(new)      A packaged detergent composition according to claim 13, wherein the water-soluble material comprises polyvinyl alcohol.
